

Features

- Shock Resistant - Excellent for applications where using electric equipment is hazardous.
- Speed/Torque control - Shaft rotation can be set at optimum speed for each application.
- Versatile - Interchangeability of different size flexible shafts and cleaning tools
- No Tooling - Quick disconnect for flexible shaft.
- Easy maneuverability - Large Wheels.
- Cleanliness - Foot pedal for operator convenience to activate shaft rotation and water flow to reduced water consumption and cleaner working area.
- Time Saving - Simultaneous water flush to remove deposits from tubes.

NOTE: As per the customer requirement, we can provide the machine with Stainless Steel Cover & Chasis

• **BHARTIYA Model BPTC- 400** Extra Heavy Duty Pneumatic Tube Cleaners Machine includes lubricator, regulator, air filter, adjustable speed/torque control, mobile dolly, air foot pedal and tool storage box.

• **The BPTC- 400** uses a cleaning tool mounted to the tip of a flexible shaft, which is available in different lengths and diameters to fit the size of the tube to be cleaned. For wet applications as the shaft rotates inside at watertight nylon casing, the unit feeds water through the casing to the cleaning tool. A foot pedal controls shaft rotation and flow. While the operator feeds the rotating shaft assembly through the tube, the water flushes out deposits as they are loosened.

Tube I.D		Tube Cleaner Model No.	Motor Power		Motor Speed RPM	Air Supply		Weight		Dimension		
MM	INCH		HP	KW		Min	Max	LBS.	KG.	HIGH	WIDE	DEEP
6.4 - 38.1	1/4" - 1.1/2"	BPTC-400	4	3	0-3000	60psi @ 15cfm	90psi @ 70cfm	66	30	38"(975mm)	22"(560mm)	16"(406mm)

Features

- **Shock Resistant** - Excellent for applications where using electric equipment is hazardous.
- **Versatile** - Interchangeability of different size flexible shafts and cleaning tools.
- **Speed/Torque control** - Shaft rotation speed can be set at optimum for each application.
- **No Tooling** - Quick disconnection for flexible shaft.
- **Time Saving** - Simultaneous water flush to remove deposits from tubes
- **Cleanliness** - Foot pedal for operator's convenience to activate both shaft rotation and water flow to reduced water consumption and making working area clean.
- **Compact** - Light weight easy to operate inside drum.

Model-BPTC-150 Portable Pneumatic Tube Cleaning Machine includes FRL unit, adjustable speed/torque control, and air foot pedal. The BPTC-150 uses a cleaning tool mounted on the tip of a flexible shaft, which is available in different lengths and diameters to fit the size of the tube to be cleaned. For wet applications, as the shaft rotates inside its watertight nylon casing, the unit feeds water through the casing to the cleaning tool.

A foot switch controls shaft rotation and water flow. While the operator feeds the rotating shaft assembly through the tube, the water flow softens the deposits before cleaning and flushes them out during cleaning.
